

Cure LBSL provides interpretation services for your convenience. Please follow the instructions below to access the live interpretation feed:

- Please make sure to connect to the Wi-Fi or use 5G network
- You will access the feed from the QR code (1 per day) attached or the **links** here to gain access to GlobalLink Live Cast:

7/24/2026 <https://live-cast.transperfect.com/show-event/4710>

7/25/2026 <https://live-cast.transperfect.com/show-event/4711>

7/26/2026 <https://live-cast.transperfect.com/show-event/4712>

- Plug in/connect your earphones to the device that you will be using to stream the interpretation and select the correct language.
- To select the correct language, navigate to the bottom left of your screen (on a mobile device). Select the speaker icon to change the language of the AI Audio or select the caption button to select your language from the drop-down.
- If using an iPhone, to reduce the number of times the site refreshes, you can turn off “Auto-Lock” while the event is going on -
<https://support.apple.com/guide/iphone/keep-the-iphone-display-on-longer-iph7117338a8/ios>
 - This doesn’t always happen, but in the case that the session “times out,” just **refresh** the page and select the flag, and the interpretation will continue.
- If there are any technical issues, please alert your team representative and we will get it resolved as soon as possible.
