

# Technical Assistance Services

at the Center for Autism and Related Disorders

A collaboration between the Maryland State Department of Education and the Center for Autism and Related Disorders at Kennedy Krieger Institute

With the goal of improving student outcomes across the state, the Maryland State Department of Education, Division of Early Intervention/Special Education Services (MSDE DEI/SES), is pleased to offer technical assistance through its collaboration with the Center for Autism and Related Disorders (CARD) at Kennedy Krieger Institute.

Available to local infant and toddler programs and school systems facing challenges in serving children with autism spectrum disorders (ASD), technical assistance services help education programs maximize potential and success. Provided by CARD staff, services may include targeted training, consultation, guided practice and observation for those directly involved in teaching and supporting the developmental and educational needs of children with ASD from early intervention to secondary transition classroom settings.

## Contact Information

We are all born with great potential.

Shouldn't we all have the chance to achieve it?
