## Why KaleidoHOPE?

The KaleidoHOPE name stems from a combination of the words Kaleidoscope and **HOPE**. Did you know that a group of butterflies is called a Kaleidoscope? Butterflies often symbolize transformation, optimism, and **HOPE**. Just as the butterfly emerges stronger and more vibrant, patients and students too can emerge from Kennedy Krieger's care with renewed strength and **HOPE**.

## • **Brushstrokes and Boundaries:**

Considerations for what to embrace and what to avoid when submitting donations.

### Brushstrokes:

- Donated artwork should be appropriate for a children's hospital
- Prioritize bright, warm, or calming tones
- Abstract, symbolic, nature-themed, narrative imagery is welcome, as well as photography and collage work
- Materials should be durable, non-toxic, and specifically suited for high-traffic pediatric healthcare and educational environments
- Donated artwork must be sealed, encased, and secured for safe display, using enclosed assemblies for items like found objects, fiber, or fragile materials.

### Boundaries:

- Avoid visual themes that may be disturbing in a pediatric healthcare/educational setting:
  - No depictions of nudity, violence, distress, religious, or political imagery
  - Avoid visual intensity that may overstimulate sensitive patients
- Avoid materials that may off-gas, shed, splinter, or degrade over time
- Avoid sharp, jagged, or loose elements, corners, or non-encased glass
