Welcome

- The origins of this conference
- Our advocacy in context
- The primary objective for today

Kennedy Krieger Institute
UNLOCKING POTENTIAL

Defining Neurodiversity

- Kennedy Krieger defines neurodiversity as a broad range of neurologic differences that endow an individual with unique skills, abilities, and perspectives.
- Embracing and respecting such differences support equity, diversity and inclusion in the workplace, at home and in the community.

Temple Grandin

Internationally known leader
in the design of livestock
handling facilities

This is a screenshot of the website for Grandin Livestock Handling Systems, Inc. The top navigation bar is dark brown with white text for 'HOME', 'ABOUT', 'CORRALS', 'FEEDYARD', 'SLAUGHTER', 'CONSTRUCTION', and 'LAYOUT EXAMPLES'. Below the navigation bar is a large image of a herd of brown cows in a green field. To the right of the image, the text reads: 'Over 30 years experience in research, design, and construction of facilities for happier, healthier animals.' Below the main image is a smaller image of a red barn and a modern, curved metal livestock handling facility. To the right of this image, the text reads: 'Ranch Cattle Handling and Corral Systems'.

We are all born with great potential.
Shouldn't we all have the chance to achieve it?
