## **Report of Independent Auditors**

To the Board of Directors of Kennedy Krieger Institute, Inc.

### **Report on the Audit of the Consolidated Financial Statements**

#### ***Opinion***

We have audited the accompanying consolidated financial statements of Kennedy Krieger Institute, Inc. and its affiliates (the "Company"), which comprise the consolidated balance sheets as of June 30, 2025 and 2024, and the related consolidated statements of operations and changes in net assets and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of June 30, 2025 and 2024, and the results of its operations, its changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date the consolidated financial statements were issued.

### ***Auditors' Responsibilities for the Audit of the Consolidated Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Information***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2025 is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with Government Auditing Standards, we have also issued our report dated September 25, 2025 on our consideration of the Company's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2025. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Company's internal control over financial reporting and compliance.

#### 1. DESCRIPTION OF ORGANIZATION

Kennedy Krieger Institute, Inc., and Affiliates (the “Institute”) is an internationally recognized organization dedicated to improving the lives of children, adolescents and young adults through comprehensive patient care, education, and research. The Institute’s primary operating activities include healthcare services, research, training, special education, and fundraising.

The operations of the Institute are carried out through a number of legal corporate entities. The consolidated financial statements of the Institute reflect the accounts of the following separate legal corporate entities:

- Kennedy Krieger Institute, Inc.
- Kennedy Krieger Children’s Hospital, Inc.
- Hugo W. Moser Research Institute at Kennedy Krieger, Inc.
- Kennedy Krieger Education and Community Services, Inc.
- Kennedy Krieger Associates, Inc.
- PACT: Helping Children with Special Needs, Inc.
- Kennedy Krieger Foundation, Inc.
- Madison Street Properties, Inc.

Healthcare services are provided through Kennedy Krieger Children’s Hospital, Inc. and include a forty bed inpatient unit typically admitting more than 290 patients yearly, over fifty specialty outpatient clinics generating in excess of 240,000 annual visits and the training of over 400 healthcare professionals each year. Net patient service revenue generated through Healthcare activities represents approximately 68.2% and 67.0% of the Institute’s operating revenue in fiscal years 2025 and 2024.

Grant and contract revenue represents approximately 14.5% and 14.9% of the Institute’s operating revenue in fiscal years 2025 and 2024, respectively. Approximately 72.3% and 72.4% of this revenue in fiscal years 2025 and 2024, respectively, comes from departments and agencies of the United States government. Major government sponsors included the National Institutes of Health, Health Human Services, Department of Defense, Maternal and Child Health, Health Resources and Services Administration, and the Department of Education.

Special education services provided through Kennedy Krieger Education and Community Services, Inc. are conducted through nonpublic special education schools for students from kindergarten to grade eight, high school, and specialized autism programs. Tuition revenue generated through special education services represents approximately 14.9% and 14.8% of the Institute’s operating revenue in fiscal years 2025 and 2024, respectively.

Kennedy Krieger Institute, Inc., Kennedy Krieger Children’s Hospital, Inc., Hugo W. Moser Research Institute at Kennedy Krieger, Inc., Kennedy Krieger Education and Community Services, Inc., Kennedy Krieger Associates, Inc., and PACT: Helping Children with Special Needs, Inc. are Maryland nonstock corporations organized for charitable, scientific, and educational purposes and are tax-exempt under Section 501(c)(3) of the Internal Revenue Code. Kennedy Krieger Foundation, Inc. (the “Foundation”), is a Maryland stock corporation and is tax-exempt under Section 501(c)(3) of the Internal Revenue Code.

Madison Street Properties, Inc. ("MSP") is a tax-exempt supporting organization under Section 509(a)(3) of the Internal Revenue Code and is wholly owned by the Foundation. All real and personal property and leasehold rights owned by the Institute are held by MSP, that in turn leases or subleases the property back to each member of the corporate family utilizing it and also provides property management services, including maintenance, security, and housekeeping.

The Institute maintains an independent affiliation with The Johns Hopkins University. The formal relationship between the parties is set forth in an affiliation agreement whereby (i) the medical, scientific, and other professional staff of the Institute receive primary and adjunct appointments in the appropriate Johns Hopkins University Schools or departments; and (ii) each Institution's independent corporate status is retained. Goods and services are purchased and sold by each organization through arm's length transactions.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### **Basis of Presentation**

The consolidated financial statements of the Institute have been prepared on the accrual basis, which conforms to accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of the Institute after elimination of all intercompany accounts and transactions.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Cash and Cash Equivalents**

The Institute considers all highly-liquid investments with original maturities of three months or less to be cash equivalents. These investments are carried at cost, which approximates market value.

### **Investments and Investment Income**

Investments in equity securities with readily determinable fair values and all investments in debt securities are recorded at fair value in the Consolidated Balance Sheets.

Investment income is included in the nonoperating activity section of the Statement of Operations. Investment income includes interest and dividends, realized and unrealized gains (losses) on investments.

### **Allowance for Doubtful Accounts**

An allowance for doubtful accounts is recorded for receivables which are anticipated to become uncollectible in future periods. Receivables deemed to be uncollectible have been written off.

### **Grant and Contract Revenue and Receivable**

Grant and contract revenues are recorded through cost reimbursement arrangements when allowable costs are incurred, through service rates as services are provided or when contractual terms are satisfied. Grant and contract receivables are recorded when earned. An allowance for uncollectible grants and contracts receivable is estimated and is recorded against grant and contract receivables.

---

#### **Tuition Revenue and Receivable**

Tuition revenue is recognized when earned over the school term (July to June). The Institute does not record an allowance for uncollectible tuition receivables as tuition invoices are paid in full by the local education agencies at state approved tuition rates. Local education agencies receive a substantial component of this tuition from the State of Maryland.

#### **Pledges Receivable**

Unconditional promises to give cash and other assets to the Institute are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the commitment is received in writing.

Pledges receivable from capital campaigns and other contributions, have been recorded net of an allowance for uncollectible pledges. The allowance for uncollectible pledges receivable is estimated based on the nature and source of each pledge including pledge payment history and the donor's likelihood of honoring the commitment. The allowance is applied to pledges greater than one year. Multi-year pledges are recorded at their estimated present value using a risk-free rate of return of 3.6% and 3.9% for 2025 and 2024.

#### **Excess of Revenue Over Expenses**

The Statements of Operations include excess of revenues over (under) expenses, which is the Institute's performance indicator. Changes in net assets without donor restrictions, which are excluded from excess of revenues over expenses consistent with industry practice, include unrealized gains and losses on investments, certain pension related transactions and assets acquired using contributions which by donor restrictions were to be used for the purpose of acquiring such assets.

#### **Investments Limited as to Use**

Investments limited as to use primarily include assets held by trustees under bond indentures, self-insurance trust arrangements, deferred compensation plans and other donor restricted gift arrangements.

#### **Property and Equipment**

Property and equipment acquisitions are recorded at cost. Depreciation is calculated using the straight-line method over the following estimated useful lives:

Buildings and improvements	30-40 years
Fixed equipment	10-15 years
Computer software	5-15 years
Furniture and equipment	3-5 years

Equipment purchases under grants, where title to the equipment rests with the grantor, are recorded as expenditures of the grant and are not capitalized or depreciated.

#### **Capital Leases**

Capital leased assets are amortized over the shorter of their estimated useful lives or the lease term. Depreciation expense on capitalized leased assets is included in depreciation and amortization expenses in the Consolidated Statements of Operations.

#### **Deferred Financing Costs**

Costs incurred related to the issuance of bonds payable have been deferred and are being amortized over the life of the bonds using the effective interest method. In fiscal year 2017, the Institute adopted ASU 2015-03, "Simplifying Presentation of Debt Issuance Costs". These debt issuance costs are now presented as a deduction from the carrying value of the associated debt.

#### **Accrued Expenses**

Accrued expenses are operating expenses that have been incurred but which have not been paid as of the balance sheet date. These expenses are typically periodic and due within one year or less. They include expenses incurred for payroll, employee benefits, subcontracts, interest and other operating items.

#### **Deferred Grant Revenue**

Deferred grant revenue has been recorded to reflect the portion of cash received on awarded grants where the grantor restrictions for its use have not been satisfied. Typically, the donor restrictions are satisfied within a year, therefore, deferred grant revenue is classified as a current liability.

#### **Net Assets**

Net assets without donor restrictions include undesignated amounts as well as amounts designated by the Board for a specific purpose. Net assets with donor restrictions are held by the Institute and consist primarily of amounts contributed to the Institute by donors with purpose restrictions. The Institute also has net assets with donor restrictions that are perpetual in nature. Earnings on these assets are available for use as specified by the donors.

#### **Estimated Professional and General Liability Costs**

The provision for estimated professional and general liability claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

#### **Derivatives**

The use of derivatives by the Institute is generally limited to an interest rate swap. The Institute follows accounting guidance on derivative financial instruments that are based on whether the derivative instrument meets the criteria for designation as cash flow or fair value hedges. The criteria for designating a derivative as a hedge include the assessment of the instrument's effectiveness in risk reduction, matching of the derivative instrument to its underlying transaction, and the assessment of the probability that the underlying transaction will occur. The Institute's only derivative financial instrument is an interest rate swap agreement without hedge accounting designation.

The Institute recognizes the fair value of its interest rate swap as a liability on the Consolidated Balance Sheet at fair value. The change in the fair value of this derivative is recorded as an unrealized gain or loss in the Consolidated Statements of Operations.

#### **Pension Plan**

The Institute follows current technical guidance for reporting and accounting for pension benefits provided to employees. This guidance requires recognition of the funded status of a defined benefit plan in the balance sheet as an asset or liability if the plan is over funded or underfunded, respectively. Changes in the funded status of a plan are required to be recognized in the year in which the changes occur through changes in Net assets without donor restrictions. The guidance also requires the measurement date of the plan's funded status to be the same as the company's fiscal year end.

**Short-Term Investments**

Short-term investments are carried at fair value and are comprised of instruments with an average duration of 1 year.

**Investments**

The fair values of marketable equity, government, and fixed income securities included in long-term investments are based on quoted market prices.

**Long-Term Debt Obligations**

Management estimates that the fair value of long-term debt is equal to its carrying value.

**Reclassifications**

Certain reclassifications have been made to conform with the current year financial statement presentation.

**3. NET PATIENT SERVICE REVENUE**

Net patient service revenues from inpatient and outpatient services are reported at estimated net realizable amounts from patients, third-party payers, and others for services rendered including contractual allowances with third-party payers and price concessions. The Institute has agreements with third-party payers that provide for payments to the Institute at amounts different from its established rates. Net patient service revenue is comprised of the following:

	<b>2025</b>	<b>2024</b>
Gross inpatient revenue	\$ 82,659	\$ 77,428
Less: Contractual allowances and price concessions	<u>(22,259)</u>	<u>(20,713)</u>
Net inpatient revenue	<u>60,400</u>	<u>56,715</u>
Gross outpatient revenue	271,005	242,623
Less: Contractual allowances and price concessions	<u>(50,230)</u>	<u>(43,926)</u>
Net outpatient revenue	<u>220,775</u>	<u>198,697</u>
Net patient service revenue	<u>\$ 281,175</u>	<u>\$ 255,412</u>

The percentage of patient service revenue generated by payer category for the fiscal years ended June 30, 2025 and 2024 is as follows:

	<b>2025</b>	<b>2024</b>
Medicaid	36%	34 %
Blue Cross	31%	32 %
Commercial insurance	27%	28 %
Self pay and other	3%	3 %
Medicare	<u>3%</u>	<u>3 %</u>

---

A summary of the payment arrangements with major third-party payers and patient financial assistance follows.

#### **Maryland Medicaid**

Since January 1, 2007, the Institute has been under a prospective payment system (“PPS”) arrangement with the Maryland Department of Health for inpatient and outpatient services provided to Maryland Medicaid patients. Service-based per diem rates for inpatient services are annually adjusted by market basket update factors published by the Centers for Medicare and Medicaid Services (“CMS”). Outpatient services are reimbursed as a percentage of charges and subject to the lower of cost versus charges. Base year costs are trended forward annually using CMS outpatient PPS market basket update factors and compared to actual charges. No retroactive settlement occurs under these arrangements.

#### **Out of State Medicaid**

The Institute has entered into payment agreements with many out-of-state Medicaid plans. The majority of these payment agreements reflect similar rates paid by Maryland Medicaid. No retroactive settlement occurs under these agreements.

#### **Commercial Insurance**

The Institute has entered into payment agreements with commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis of payment to the Institute under these agreements includes prospectively determined rates per day or discharge, discounts from established charges and prospectively determined daily rates. No retroactive settlement occurs under these agreements.

#### **Medicare**

Certain inpatient and outpatient services rendered to Medicare beneficiaries are subject to retrospective cost-based reimbursement. Medicare cost reports have been filed through 2024 and final settled through 2021. No significant settlement due to or from the Medicare Program has been estimated and as a result no receivable or payable has been recorded at June 30, 2025 or 2024.

#### **Financial Assistance and Community Benefit**

The Institute provides services without charge or at discounted charges to patients who meet certain criteria under its financial assistance policy. The criteria for financial assistance considers the patient or patient’s family’s ability to pay at time of service. The Institute uses the federal poverty guidelines to determine eligibility for free or discounted care. In addition, the Institute’s policy applies to patients who are medically indigent. The Institute also offers payment plan options to assist patients who experience a financial hardship paying their hospital and professional services bills, but who might not qualify for financial assistance. Continually the Institute reviews its financial assistance policy along with providing a plain language summary of the policy that is distributed to patients at registration.

The cost for services and supplies furnished under the Institute’s financial assistance policy aggregated approximately \$8,029 and \$5,991 in 2025 and 2024, respectively. The cost has been estimated based on a cost to charge ratio and applied to financial assistance charges.

In addition to patient financial assistance and payment plan options, the Institute provides various community health benefits across the developmental disability populations within the State of Maryland. The foundation of the community benefits provided envisions all persons with developmental disabilities (“DD”) lead fully inclusive and meaningful lives. A community health needs assessment is completed every three years and updated annually to understand the changing needs of the community served. Based on the needs assessment completed in 2025, the top four priority areas identified included: strengthening workforce capacity, addressing the growing need for behavioral and mental health services, facilitating the transition from adolescence to adulthood, and strengthening family and community connections.

**4. TUITION REVENUE**

Tuition revenue generated by special education school programs is summarized as follows:

	<b>2025</b>	<b>2024</b>
High School	\$ 18,027	\$ 16,420
Lower/Middle School	19,763	18,731
Leap/Autism	9,317	9,369
Powder Mill Campus	11,545	10,984
Southern Maryland Campus	2,706	1,019
	<u>\$ 61,358</u>	<u>\$ 56,523</u>

Over 450 students are enrolled in special education programs each year and come from Baltimore City and many Maryland counties, Washington D.C., Virginia and other private and international sources. The percentage of tuition revenue generated by jurisdiction is as follows:

	<b>2025</b>	<b>2024</b>
Prince George's County, MD	19.0 %	19.0 %
Baltimore County, MD	15.0 %	16.0 %
Anne Arundel County, MD	14.4 %	17.0 %
Washington, DC	8.9 %	10.0 %
Montgomery County, MD	8.6 %	9.4 %

**5. GRANT AND CONTRACT REVENUE**

Grant and contract revenue is generated through the following activities:

	<b>2025</b>	<b>2024</b>
Research	\$ 44,246	\$ 39,354
Community service	12,310	14,163
Training / hospital	3,395	3,135
	<u>\$ 59,951</u>	<u>\$ 56,652</u>

Research revenue includes all research initiatives funded through government and private sources. Community service revenue is derived from services provided to individuals and families with special needs in a community-based setting and is funded through government programs. Training revenue represents government funding of training programs for professionals in the field of developmental disabilities.

Grant and contract revenue includes recoveries of facility and administrative costs, with certain limitations and exclusions. Certain revenues and costs in current and prior years are subject to audit and retroactive settlement. No reserve has been recorded for any potential settlements as amounts are not known or are considered immaterial.

**6. CONTRIBUTIONS FROM FUNDRAISING ACTIVITIES**

During 2025 and 2024, the Institute recognized contributions from fundraising activities as summarized below:

	<b>2025</b>	<b>2024</b>
Contributions:		
With donor restrictions	\$ 11,381	\$ 11,814
Without donor restrictions	1,327	1,568
Total contributions	<u>\$ 12,708</u>	<u>\$ 13,382</u>
Fundraising expenses:		
With donor restrictions	3,834	1,935
Without donor restrictions	\$ 1,596	\$ 1,321
Total expenses	<u>\$ 5,430</u>	<u>\$ 3,256</u>

Contributions with donor restrictions are made up of annual giving and purpose restricted contributions which are classified as net assets with donor restrictions on the Consolidated Balance Sheets. Contributions that are donor restricted to be held in perpetuity reflect gifts where the corpus cannot be utilized but where investment earnings are available for use. These contributions are also classified as net assets with donor restrictions on the Consolidated Balance Sheets. Contributions that reflect gifts with no donor restrictions are reported on the Consolidated Statements of Operations as contributions without donor restrictions, net.

Fundraising expenses are reported as operating expenses for those expenses related to contributions without donor restrictions and as nonoperating activity for those expenses related to contributions with donor restrictions. Expenses directly related to special events are netted with the revenue from those events.

**7. INVESTMENTS AND INVESTMENT INCOME**

	<b>2025</b>	<b>2024</b>
Board designated endowment:		
Fixed income mutual funds	\$ 20,389	\$ 19,102
Equity mutual funds	56,500	51,679

Total assets limited to use	<u>12,403</u>	<u>11,185</u>
Total investments	<u>\$ 89,292</u>	<u>\$ 81,966</u>

Changes in Board designated endowment investments for the years ended June 30, 2025 and 2024 are as follows:

	<b>2025</b>	<b>2024</b>
Board designated endowment investments, beginning of year	\$ 70,781	\$ 65,802
Investment return, net	8,110	8,177
Investment withdrawals	(2,002)	(3,198)
Board designated endowment investments, end of year	<u>\$ 76,889</u>	<u>\$ 70,781</u>

The Investment Committee of the Board of Directors (“Investment Committee”) sets the investment policy for the Board designated endowment investments, including investment and spending guidelines. Investments are based on the objective of achieving capital appreciation and investment income. Assets are invested in a manner that is intended to achieve an average annual real return in excess of inflation while assuming an acceptable level of investment risk. To monitor the effectiveness of the investment strategy of long-term investments, performance goals are established and monitored related to benchmark indices and returns earned by comparable funds.

To satisfy its long-term rate of return objectives of the Board designated endowment investments, the Institute employs a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current income (interest and dividends). The investment policy includes a target asset allocation that is well diversified among suitable asset classes and that is expected to generate, on average, the level of expected return necessary to meet the long-term investments’ objectives while assuming a level of risk (volatility) consistent with achieving that return.

**Kennedy Krieger Institute, Inc., and Affiliates**  
**Notes to Consolidated Financial Statements**  
**June 30, 2025 and 2024**  
**(in thousands)**

The asset allocation of the Board designated endowment investments at June 30, 2025 and 2024 is summarized below. The Investment Committee regularly reviews the actual asset allocation against the target and periodically rebalances the investment, as appropriate.

	Target Allocation	Actual Allocation	
		2025	2024
Equities	70 %	73 %	73 %
Fixed income	30 %	27 %	27 %
	<u>100 %</u>	<u>100 %</u>	<u>100 %</u>

The investment policy also provides for an investment earnings withdrawal to be used in support of operating activities, as determined by Institute management, and approved through the annual budget. The annual withdrawal is calculated based on 4% of the three-year average market value of the portfolio. Calculated withdrawals under the policy are \$2,655 and \$2,707 and actual withdrawals were \$2,001 and \$3,198 in 2025 and 2024, respectively. Since policy inception, \$4,009 and \$3,355 in calculated withdrawals have been deferred as of June 30, 2025 and 2024.

Investments with a market value of \$1,605 as of June 30, 2025 and 2024 have been pledged as collateral under the Institute's self-funded unemployment insurance plan.

**Investments Limited as to Use**

Investments limited as to use at June 30, 2025 and 2024 are made up of the following:

	2025	2024
Self insurance trust fund	\$ 6,988	\$ 6,187
Deferred compensation	3,512	3,006
Donor restricted fund	1,247	1,346
Planned gifts, net of reserve	361	351
Donor advised fund	295	295
Total investments limited as to use	<u>\$ 12,403</u>	<u>\$ 11,185</u>

**Investment Income and Gains and Losses**

Investment income and gains and losses are comprised of the following:

	2025	2024
Investment return:		
Interest and dividend income	\$ 3,838	\$ 2,840
Realized gain on investments, net	894	1,300

**Liquidity and Availability**

Financial assets at June 30, 2025 are made up of the following:

Cash	\$ 15,367
Patient receivable, net	35,908
Grant and contract receivable	12,424
Tuition receivable	7,780
Pledges receivable	11,605
Prepaid expenses and other current assets	6,299
Investments limited as to use	12,403
Long-term investments	76,889
Total financial assets	178,675
Less amounts not available:	
Investments limited as to use	12,403
Pledges receivable, in excess of 1 year	8,450
Financial assets not available to be used within one year	20,853
Financial assets available to meet general expenditures within one year	\$ 157,822

As part of the Institute's liquidity management plan, cash in excess of daily requirements is invested in either money market funds, short-term investments, or long-term investments. Investment decisions are based on anticipated liquidity needs, such that financial assets are available as general expenditures, liabilities, and other obligations come due. Additionally, the Institute maintains a line of credit with a bank, as discussed in Note 14.

**8. FAIR VALUE MEASUREMENTS**

The Institute follows the FASB's guidance on fair value measurements, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, establishes a framework for measuring fair value, and expands disclosures about such fair value measurements. This guidance applies to other accounting pronouncements that require or permit fair value measurements and, accordingly, this guidance does not require any new fair value measurements.

This guidance discusses valuation techniques such as the market approach, cost approach and income approach. The guidance establishes a three-tier level hierarchy for fair value measurements based upon the transparency of inputs used to value an asset of liability as of the measurement date. The three-tier hierarchy prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted market prices for identical assets or liabilities in active markets;
- Level 2 – Observable inputs for similar assets or liabilities in an active market, or other than quoted prices in an active market that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data that requires the reporting entity to develop its own assumptions.

**Notes to Consolidated Financial Statements**  
**June 30, 2025 and 2024**  
**(in thousands)**

The financial instrument's categorization within the hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Each of the financial instruments below has been valued utilizing the market approach.

The following tables present the fair value of investments and liabilities as of June 30, 2025 and June 30, 2024, by the valuation hierarchy defined above and also presents information on the liquidity aspects of each investment.

- (3) Equity funds include investments in common stock mutual funds with next day liquidity.
- (4) Privately held investments include common stock of a privately held company. There is no market for the common stock.
- (5) The Institute has classified the valuation of its interest rate swaps as Level 2 within the fair value hierarchy. Over-the-counter derivatives that trade in liquid markets, such as interest rate swaps, model inputs (i.e. contractual terms, market prices, yield curves, credit curves, and measures of volatility) can generally be verified, and model selection does not involve significant management judgment.

**9. PROPERTY AND EQUIPMENT**

A summary of property and equipment at June 30, 2025 and 2024 is as follows:

	<b>2025</b>	<b>2024</b>
Land	\$ 4,657	\$ 4,657

**11. SIGNIFICANT CONCENTRATIONS OF CREDIT RISK**

The Institute records patient receivables due for services provided to patients and others. The majority of these patients either qualify for federal/state assistance programs or have insurance through commercial insurance companies or managed care organizations. The Institute maintains reserves for potential losses and such losses have been within management's expectations.

The mix of patient receivables due from patients and third-party payers at June 30, 2025 and 2024 are as follows:

	<b>2025</b>	<b>2024</b>
Medicaid	22.7 %	14.0 %
Medicaid managed care	4.0 %	4.6 %
Total Medicaid	26.7 %	18.6 %

**13. DEBT**

**Long-Term Debt – (Bonds Payable and Bank Loans)**

Bonds payable issued through the Maryland Health and Higher Educational Facilities Authority (“MHHEFA”) and Bank Loans at June 30, 2025 and 2024 consisted of the following:

	<b>2025</b>	<b>2024</b>
MHHEFA Series 2017A Bonds	\$ 19,136	\$ 19,838
MHHEFA Series 2017B Bonds	20,786	21,951
MHHEFA Series 2020 Bonds	7,380	8,890
MHHEFA Series 2023 Bonds	17,500	17,500
2020 Taxable Bank Loan	6,890	8,026
	<u>71,691</u>	<u>76,205</u>

Less: Unamortized deferred financing costs	(547)	(616)
Long term debt, net	<u>\$ 66,417</u>	<u>\$ 71,076</u>

The Series 2017A Bonds issued through MHHEFA were privately placed in March 2017 with CapitalOne Municipal Funding through a \$23,000 nonbank qualified term loan with a 25-year amortization and a bank commitment maturity date of April 1, 2027. Principal and interest payments are due in monthly installments on the first day of each month. Principal payments began on April 1, 2019. Terms of the loan agreement called for an original fixed rate of interest of 3.21%. Due to the change in the maximum federal corporate tax rate, the loan agreement was amended in May 2018, with a fixed rate of interest of 3.79%.

The Series 2017B Bonds issued through MHHEFA were privately placed with Truist Bank (formerly BB&T) through a \$27,510 term loan with a maturity date of April 1, 2027. The loan is being amortized through March 1, 2037. Terms of the loan agreement call for interest to be paid based on a percentage of 30-day LIBOR plus a credit spread. On August 20, 2021, the terms of 2017B Bonds were amended by Truist Bank to extend the bank commitment date through August 2030 and add an interest rate floor. On December 1, 2021 an amendment was made to the financing agreement to change the interest rate basis from 30-day LIBOR to SOFR and to remove the interest rate floor. Principal and interest payments continue to be due in monthly installments.

The Series 2020 Bonds issued through MHHEFA were privately placed through a \$14,300 term loan with Fulton Bank. Terms of the Series 2020 Bonds call for 10-year bank commitment with amortization continuing through July 1, 2036. Principal and interest are to be paid monthly with interest determined based on an index floating rate plus a credit spread and subject to an interest rate floor.

On April 3, 2023, the Institute closed on the MHEFFA Series 2023 Bonds. The Series 2023 Bonds issued through MHEFFA refinanced the Series 2013 Bonds and included \$3,000 in new money. The bonds were privately placed with Truist Bank through a \$17,500 term loan with a maturity date of July 1, 2033. Principal and interest are to be paid monthly with interest determined based on an index floating rate plus a credit spread.

The 2020 Taxable Bank Loan was closed with Truist Bank on August 20, 2020 in the amount of \$10,250 and refunded a \$10,000 short-term loan plus closing costs. Terms of the 2020 Taxable Bank Loan include a 5-year bank commitment with a 10-year amortization. Principal and interest are to be paid monthly with interest determined based on an index floating rate plus a credit spread and subject to an interest rate floor. On December 1, 2021 an amendment to the loan agreement was made to change the interest rate basis from 30-day LIBOR to SOFR.

The obligated group for Bonds Payable and Bank Loan (the “Debt”) include Kennedy Krieger Institute, Inc., and each of its affiliated entities. Bonds Payable were issued in parity and contain certain restrictions on the Institute’s ability to incur additional indebtedness, restrict its use of facilities, maintain stipulated insurance coverage, and maintain a rate structure sufficient to meet its total annual cash requirements. The Institute must maintain compliance with certain debt covenants contained in the bond and loan agreements. At June 30, 2025 and 2024, the Institute was in compliance with all debt covenants in accordance with these agreements.

The aggregate future maturities of Bonds Payable and Bank Loan over the next five years and thereafter are summarized below at June 30, 2025.

2026	\$	4,727
2027		4,941

2029		5,413
2030		5,642
Thereafter		45,823
	\$	<u>71,691</u>

Unamortized deferred bond financing costs of \$547 in 2025 and \$616 in 2024 are netted against Long-term debt. Amortization expense was \$68 and \$143 in 2025 and 2024, respectively.

**Line of Credit**

The Institute maintains a working capital line of credit with Truist bank. The committed amount under the line of credit is \$20,000 with the commitment extended through November 16, 2025. Total draws against the line of credit were \$8,517 and \$0 at June 30, 2025 and 2024, respectively. The line of credit is secured by a pledge on the revenues of the Institute and debt covenant requirements are consistent with Long-term debt.

**14. LEASES**

The Institute has operating and financing leases for medical and corporate offices, schools, and certain medical and technology equipment.

Real estate lease agreements typically have initial terms of 5 to 15 years and typically include one or more options to renew that can extend the lease term for an additional 5 to 10 years. The Institute believes that it is reasonably likely that the options to extend will be exercised based on past history, therefore, the option periods were included in the lease terms when calculating the ROU assets and liabilities. Equipment lease agreements typically have initial terms of 3 to 5 years and usually do not have renewal options. The Institute uses its incremental borrowing rate in calculating the ROU assets and lease liabilities for all operating leases since no implicit rate is contained in the lease agreements.

The following table presents operating and finance related assets and liabilities at June 30, 2025:

	<b>Balance Sheet Classification</b>	<b>2025</b>	<b>2024</b>

**15. RETIREMENT PLANS**

The Institute maintains defined benefit and defined contribution plans covering substantially all of its employees.

**Defined Benefit Plan**

The Institute's defined benefit pension plan (the "plan") provides benefits to staff-level employees based on years of service and the employees' final average compensation. The Institute's policy is to annually fund the amount necessary to meet minimum funding requirement under ERISA. As the plan was above minimum funding requirements, no contributions were made for 2025 and 2024. The plan was amended effective April 1, 2019 to allow lump sum payments to employees hired before July 1, 1989 and to allow in-service distributions to Plan participants who reach normal retirement age while still employed.

The net periodic benefit cost calculated in accordance with current guidance for employer's accounting for pension obligations is (\$650) and (\$866) for 2025 and 2024, respectively. The service cost components of net periodic pension cost is reported within salaries, wages and benefits on the Consolidated Statements of Operations and Changes in Net Assets.

---

The plan's target allocations and actual asset allocation at June 30, 2025 by asset category, was as follows:

	Target Allocations		Actual Allocation	
	Pre de-risking	Post de-risking	2025	2024
Money market funds	0%	0%	0.9%	0.2 %
Equities	65%	25%	24.9%	67.5 %
Fixed income	35%	75%	74.2%	32.3 %
	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100.0 %</u>

Given the current overfunded status of the plan, the Institute considered and implemented a de-risking strategy in 2025 that adopts a liability-driven investment approach in managing plan assets. This approach hibernates the plan for the foreseeable future using fixed income assets with a duration approximately equal to the liability duration to hedge the interest rate risk to the liability valuation, while investing any surplus assets above the plan liability in growth (equity) assets.

**Defined Contribution Plan**

The Institute maintains a qualified defined contribution retirement plan which is in compliance with section 401(k) of the Internal Revenue Code (IRC). The 401(k) plan is active and available to all employees (including all faculty, senior staff members, and trainees) and provides for up to a 50% employer match on employee contributions up to certain levels of compensation. During 2025 and 2024, the aggregate contributions to the 401(k) plan were \$24,437 and \$22,491.

**Deferred Compensation Plan**

The Institute also offers a nonqualified deferred compensation plan (457(b) of the IRC) for certain of its executives which allows for the deferral of compensation up to IRS limits. A deferred compensation balance of \$3,512 and \$3,006 in fiscal years 2025 and 2024, respectively, was reported in Investments limited as to use in the Consolidated Balance Sheet. An associated liability of an equal amount is included in Other long-term liabilities in the Consolidated Balance Sheet. The Institute makes no contributions to the Deferred Compensation Plan.

**16. INTEREST RATE SWAP**

The Institute manages the fixed/variable mix of its debt portfolio, including hedging exposure to increasing interest expense on variable rate debt, by utilizing interest rate swaps. The Institute maintains two separate fixed payer interest rate swap agreements which hedge the variable interest rate risk on the majority of the outstanding balance of the Series 2020, Series 2017B and Series 2023 Bonds. Under the terms of the agreements with the swap counterparties, the Institute pays a fixed rate of 3.636% (Series 2017B and Series 2020) and 3.452% (Series 2023) and receives a percentage of an applicable variable reference rate on notional amounts that reduce annually until July 2036 and July 2033, respectively. Notional amounts of \$46,793 and \$48,423 were effective June 30, 2025 and 2024, respectively. Under the terms of the agreements, no collateral requirements exist on the part of the Institute.

**17. NET ASSETS WITH DONOR RESTRICTIONS**

Net assets with donor restrictions were held for the following purposes at June 30, 2025 and 2024:

	<b>2025</b>	<b>2024</b>
Capital campaigns	\$ 22,189	\$ 17,355
Research and clinical projects	24,173	26,355

**18. SELF INSURANCE**

**Professional and General Liability**

The Institute maintains a self-insurance trust (the “Trust”) for general and professional liability to cover liability claims arising out of the ordinary course of its business. Excess coverage with an insurance company is in place to cover losses above self-insured retention levels.

Assets in the Trust are to provide for payment of professional and general liability claims and expenses. Potential losses from asserted and unasserted claims are accrued based on estimates that incorporate the Institute’s past experience, as well as other considerations, including the nature of each claim or incident, applicable insurance coverage and relevant trend factors.

An accrued liability related to asserted and unasserted self-insured general and professional liability claims of \$3,389 and \$2,684 have been recorded as of June 30, 2025 and 2024 and are included in Accounts payable and accrued expenses on the Consolidated Balance Sheets. Investments in the Trust have a market value of \$6,988 and \$6,187 at June 30, 2025, and 2024, respectively, and are reported in Investments limited as to use on the Consolidated Balance Sheets.

**Workers’ Compensation, Unemployment and Health Benefits**

The Institute self-insures its workers’ compensation, unemployment and employee health and dental benefits. Losses from claims identified by the Institute, as well as provisions for estimated losses for incurred but not reported incidents, are accrued based on estimates that incorporate the past experience of the Institute, as well as other considerations, including the nature of the claims or incidents and relevant trend factors. An accrued liability of \$2,953 and \$2,762 has been recorded on June 30, 2025, and 2024, respectively, for these self-insured plans and is included in Accounts payable and accrued expenses on the Consolidated Balance Sheets.

**19. COMMITMENTS AND CONTINGENCIES**

**Litigation**

The Institute is involved in claims and litigation on professional liability and personnel matters that arise in the ordinary course of its business. This litigation is not expected to result in losses that exceed insurance limits or have a materially adverse effect on the Institute’s financial position.

**Charitable Gift Annuities**

The Institute has received charitable gift annuities from donors from which the Institute has guaranteed payments to the donor on a quarterly basis until the donor’s death.

The Institute has recorded gift annuities, net of future annuity payments, consistent with the rates adopted by the American Council on Gift Annuities at the time of issuance of the gift annuity. Gift annuities with a market value of \$442 and \$450 have been recorded in 2025 and 2024. Maryland Insurance Commission required reserves for annuity payments are \$280 and \$294 in 2025 and 2024. Assets maintained on outstanding annuity agreements exceed the amount of the Maryland Insurance Commission required reserve.

**20. FUNCTIONAL EXPENSES**

The Institute provides specialty pediatric health care services, conducts laboratory and clinical research, operates special education school programs, and administers community-based services, conducts fundraising activities, and provides institutional support. Costs not directly attributable to a function, including depreciation and interest, are allocated to function based on square footage.

Expenses related to providing these services are as follows:

## Report of Independent Auditors

To the Board of Directors of Kennedy Krieger Institute, Inc.

We have audited the consolidated financial statements of Kennedy Krieger Institute, Inc. and its affiliates (the "Company") as of and for the years ended June 30, 2025 and 2024 and have issued our report thereon dated September 25, 2025, which included an unmodified opinion on those consolidated financial statements. That audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The accompanying consolidating balance sheet information and consolidating statements of operations and changes in net assets as of and for the years ended June 30, 2025 and 2024 (the "supplemental consolidating information") is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. The supplemental consolidating information is not intended to present, and we do not express an opinion on, the financial position, results of operations, changes in net assets and cash flows of the individual companies. The supplemental consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The supplemental consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

**1. Basis of Presentation and Accounting**

The consolidating supplemental schedules have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Supplemental Consolidating Financial Statements presented on pages 35-40 were derived from and relate directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial positions and changes in net assets of the individual companies within the Institute and are not a required part of the consolidated financial statements. The individual affiliates within the Institute as presented within the supplemental consolidating financial statements are disclosed within Note 1 to the consolidated financial statements.

## Notes to Schedule of Expenditures of Federal Awards

### June 30, 2025

---

#### 1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") summarizes the expenditures of Kennedy Krieger Institute, Inc. and Affiliates (the "Institute") under programs of the Federal Government for the year ended June 30, 2025. The information presented in the Schedule is presented on the accrual basis of accounting, which is in accordance with the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Expenditures for federal awards are determined using the cost principles set forth in the Uniform Guidance. Under these cost principles, certain types of expenditures are not allowable or are limited to reimbursement.

The accompanying Schedule includes the federal grant transactions of the Institute and includes Federal Awards made to the following corporate entities: Kennedy Krieger Children's Hospital, Inc., Hugo W. Moser Research Institute at Kennedy Krieger, Inc., Kennedy Krieger Education & Community Services, Inc. and PACT: Helping Children with Special Needs, Inc. under programs of the federal government for the year ended June 30, 2025. These corporate entities are denoted on the Schedule as follows:

	<b>Total Federal Expenditures</b>	<b>Passed to Subrecipients</b>	
R	\$ 41,230,307	\$ 7,149,423	<i>R – Hugo W. Moser Research Institute at Kennedy Krieger, Inc.</i>
C	4,701,990	-	<i>C – Kennedy Krieger Education &amp; Community Services, Inc.</i>
P	2,779,000	-	<i>P – PACT: Helping Children with Special Needs, Inc.</i>
H	<u>2,326,411</u>	<u>-</u>	<i>H – Kennedy Krieger Children's Hospital, Inc.</i>
	<u>\$ 51,037,708</u>	<u>\$ 7,149,423</u>	

Because the Schedule presents only a selected portion of the operations of the Institute, it is not intended to and does not present the financial position, results of operations and nonoperating activity, or cash flows of the Institute. Negative amounts reflect adjustments made to expenditures reported in prior years in the normal course of business.

For purposes of the Schedule, federal awards include all awards in the form of grants, contracts, and similar agreements entered into directly between the Institute and agencies and departments of the federal government, or nonfederal pass-through entities. Federal Assistance Listing Numbers and pass-through identification numbers are included when available.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Schedule reflects federal award program expenditures recognized on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The Institute has not elected to use the 10% de minimis rate, or the 15% de minimis rate as applicable for indirect costs. Indirect costs are billed based upon negotiated and budgeted rates.

**Part II**  
**Reports on Compliance and Internal Control**

**Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance  
and Other Matters Based on an Audit of Financial Statements Performed in Accordance with  
Government Auditing Standards**

To the Board of Directors of Kennedy Krieger Institute, Inc. and Affiliates

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Kennedy Krieger Institute, Inc. and Affiliates (the "Institute"), which comprise the consolidated balance sheet as of June 30, 2025, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, including the related notes (collectively referred to as the "consolidated financial statements"), and have issued our report thereon dated September 25, 2025.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the consolidated financial statements, we considered the Institute's internal control over financial reporting ("internal control") as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness the Institute's internal control. Accordingly, we do not express an opinion on the effectiveness of the Institute's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Institute's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Institute's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Institute's internal control and compliance.

Accordingly, this communication is not suitable for any other purpose.

## **Report of Independent Auditors on Compliance for Each Major Program and on Internal Control Over Compliance Required by Uniform Guidance**

To the Board of Directors of Kennedy Krieger Institute, Inc. and Affiliates

### **Report on Compliance for Each Major Federal Program**

#### ***Opinion on Each Major Federal Program***

We have audited Kennedy Krieger Institute Inc.'s and Affiliates (the "Institute") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Institute's major federal programs for the year ended June 30, 2025. The Institute's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Institute complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

#### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (US GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Institute and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide legal determination of Institute's compliance with the compliance requirements referred to above.

#### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Institute's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Institute's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not guarantee that an audit conducted in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Institute's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Institute's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Institute's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2025-001. Our opinion on each major federal program is not modified with respect to this matter.

*Government Auditing Standards* requires the auditor to perform limited procedures on the Institute's response to the noncompliance findings identified in our audit described in the accompanying schedule of findings and questioned costs and corrective action plan. The Institute's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## Schedule of Findings and Questioned Costs

### Year Ended June 30, 2025

---

#### Section II - Financial Statement Findings

There were no matters to be reported.

#### Section III A – Federal Findings and Questioned Costs

**Finding 2025-001:** Compliance with Federal Funding Accountability and Transparency Act (FFATA)

**Cluster:** 93.243, 93.456

**Federal Agency:** Department of Health and Human Services

**Award Name:** Collective for Antiracist Child and Family Systems,  
Maternal Child Health Careers/Research Initiatives-Undergrad

**Assistance Listing #:** 93.243, 93.456

**Assistance Listing Title:** Center for Mental Health Services, Centers for Disease Control & Prevention

**Award Year(s):** 7/1/2024-6/30/2025

#### Criteria

2 CFR §200.301 requires recipients to report subaward information for all subawards of \$30,000 or more using the FFATA Subaward Reporting System (FSRS) within 30 calendar days after the subaward is made.

#### Condition

During our testing of compliance with federal reporting requirements it was noted that the recipient did not submit a required FFATA report for a subaward that exceeded \$30,000 in a timely manner. Specifically, the report was not submitted to FSRS within the 30-day deadline.

#### Cause

The recipient's established control for monitoring subaward agreements subject to FFATA reporting failed due to a manual process for tracking executed subrecipient agreements, resulting in missed report filings during the fiscal year

#### Effect

Delays in FFATA reporting reduce federal transparency and may result in noncompliance with federal statutory and regulatory requirements. This noncompliance could potentially lead to federal sanctions or loss of funding if not corrected.

#### Questioned costs

There are no questioned costs associated with this finding.

#### Recommendation

We recommend the recipient expand their control to include a completeness check against their systems of record and implement other process oversight changes to ensure all applicable reports are submitted prior to the 30-day deadline

#### Repeat Finding in the Prior Year

No

#### Management's Views and Corrective Action Plan

Refer to Management's Views and Corrective Action Plan at the end of this report.

**Federal Granting Agency:** United States Department of Education, Health Resources and Services Administration

**Award Name:** Special Education Cluster, Integrated Early Learning Center Demo Pilot Sites, Provision of Special Education Services in Maryland

**Assistance Listing #:** Various grants within Special Education Cluster, 84.215K

**Assistance Listing Title:** Various grants within Special Education Cluster, 84.215K

**Award Year:** 7/1/2023-6/30/2024

**Status**

During the fiscal year ended June 30, 2024, Kennedy Krieger Institute maintained a policy to ensure supply, equipment and professional service vendors that are charged to Federal awards were not suspended or debarred from doing business with the Federal government. Management has documented the correction and there have not been any additional inquiries. KKI has fully implemented its corrective action plan.

**Management's Views and Corrective Action Plan**

Kennedy Krieger Institute concurs with this finding.

During fiscal year 2025, Kennedy Krieger Institute identified a control weakness with our established FFATA reporting control. After thorough review of active subaward agreements, Kennedy Krieger Institute identified two contracts that were not reported timely as the projects were not centrally managed and therefore fell outside of its normal research administration process. Upon identification, Kennedy Krieger Institute promptly submitted the FFATA reports via SAM.gov.

Kennedy Krieger Institute has since enhanced its FFATA reporting control through strengthened governance, system improvements, and expanded oversight. As part of the Institute's Subaward Management processes, the FFATA reporting process has been clearly defined and communicated to all grant managers, ensuring that all subawards are maintained within a centralized sponsored projects reporting system (Fibi), regardless of the team responsible for award management. Fibi has been updated to include a required checkbox and date field indicating when FFATA reporting has been completed and the associated submission date. In addition, Kennedy Krieger Institute is working with system developers to implement a standard system-generated report that can be run monthly or on an ad hoc basis to identify all subawards subject to FFATA reporting, enabling Finance to validate completeness and timeliness across all areas. Finance will complete regular checks of subawards set up in the financial system of record in comparison to Fibi to ensure all subawards are being reported timely.

These enhancements establish a checks-and-balances framework through clearly defined shared responsibilities and coordinated oversight between the Research Administration and Finance departments. This control enhancement was implemented for the January 2026 FFATA reporting cycle.
