During fiscal year 2025\*, 125 patients were treated in the Community Rehabilitation program at Kennedy Krieger.

### Age breakdown of patients:

### Gender Breakdown:

## Rehabilitation Services Provided

The Community Rehabilitation Program treats infants, children and adolescents who, collectively, have a variety of rehabilitation needs.

## Types of Patients Treated

The patients who participate in the Community Rehabilitation program have limitations in at least one of the following areas:

MOBILITY

ENGAGING IN ACTIVITIES OF DAILY LIVING

(Doing chores, eating)

COMMUNICATION  
(Understanding and speaking)

PERFORMING DAILY SELF-CARE ACTIVITIES

PARTICIPATING IN HOME, SCHOOL AND COMMUNITY ACTIVITIES

**100% of acute neurorehabilitation patients admitted within 10 days of patient availability**

## Interdisciplinary Treatment Team

Patients served in the Community Rehabilitation Program may have complex needs. An experienced interdisciplinary treatment team works with every patient and the family to address individual needs.

### This team may include:

- Occupational therapists
- Physical therapists
- Social worker
- Speech-language pathologists

## Where do patients live who are seen by the Community Rehabilitation Program?

All of the patients treated in the Community Rehabilitation program in FY 25 were from Maryland.

### Here is a breakdown of the counties in which we serve:

## How much therapy do patients being treated in the Community Rehabilitation Program receive?

Depending on the needs of the individual, patients in the Community Rehabilitation program receive 1-3 hours of therapy per week.

The treatment team evaluates each individual. Based on the results of these evaluations, the treatment team and the family develop a plan for community- based treatment.

## What kinds of improvements might patients be expected to make while receiving treatment from the Community Rehabilitation Program?

Our outcome data support the effectiveness of our approach.

### During fiscal year 2025\*:

100% of patients met or exceeded WeeFIM goals

92% of primary admission goals were achieved by discharge

94% of families indicated that their children participated in home activities

Though medically fragile and homebound, with education and therapeutic intervention, 72% of Community Rehabilitation patients were able to participate in community activities.

100% of patients that were school age participated in school

Within 3 months of discharge from Community Rehabilitation, 84% of families experienced no unplanned hospitalizations

## How is a patient and their family involved in the care received from the Community Rehabilitation Program?

Kennedy Krieger is committed to providing person and family-centered care which is a collaborative approach to the planning and delivery of services. Our services reflect the person and family-centered care principles of participation; collaboration; information sharing; dignity and respect; and are aligned fully with the mission, vision, and values of the Institute.

**Families and caregivers are integral partners in the delivery of Community Rehabilitation's in-home therapy providing active participation in treatment planning and goal setting.**

## What do patients and their families say about their experience with the Community Rehabilitation Program?

During fiscal year 2025\*:

100% of patients felt their therapists were effective

94% of caregivers were satisfied with the program

## Does Kennedy Krieger have special accreditation?

Kennedy Krieger Institute is accredited by the Commission on the Accreditation of Rehabilitation Facilities (CARF) and The Joint Commission.

Every three years, both organizations review the Institute to ensure all its programs meet or exceed the very high standards it sets for the care of its patients.

**\*FY 25 represents the dates from July 1, 2024 to June 30, 2025**
