

Research Opportunity

Spinal Cord Injury Patients needed for Computer-Brain Interface Research Study

Eligibility:

- Between 22 -65 years of age.
- C4-C6 tetraplegia.
- Complete or incomplete spinal cord injury.
- Willingness to have brain surgery for micro-electrode implant.
- Requires strong commitment.
 - *One year study.*

Details:

- Micro-electrode implant surgery to control a robotic arm and other devices with brain.
- Located at the Johns Hopkins Hospital
- Earn more than \$6000 with full participation
