

PARENTS!

Do you have a 12–16 month old child who is the younger sibling of a child with autism?

Interested in receiving free developmental feedback for your child? Researchers at Kennedy Krieger Institute are testing a new method of screening for ASD. We hope to improve ways to identify children who may benefit most from early intervention.

Step 1: Sign Up Online

Use this QR code or click on the link below to sign up and consent to participate in this research study.

cardsurveys.kennedykrieger.org/index.php/566749?lang=en

Step 2: Online Questionnaires

Complete online questionnaires about you and your child.

Participation is 100% virtual and requires no in-person visits!

Step 3: ASD Televisit Assessment

An ASD televisit assessment will be conducted via zoom with a KKI examiner.

Upon Study Completion...

You will receive a \$40 gift card as well as developmental feedback. If concerns are identified during research assessments, you will also receive a referral for a formal clinical evaluation.
