

JHU/KKI Epilepsy Brain Imaging Research Study

We are recruiting:

- 1. Children with epilepsy**
- 2. Healthy children without epilepsy**

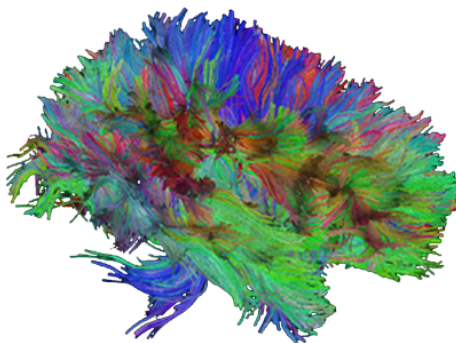

This non-invasive brain imaging research study uses Magnetic Resonance Imaging (MRI), Electroencephalography (EEG), and simple computer tasks. Participants must be between 4 and 18 years old.

Participants will visit the F.M. Kirby Research Center for Functional Brain Imaging for 1-3 sessions (about 6 hours total). Participants receive up to \$200 total, with parking reimbursement and snacks provided.
