

Research Opportunity

Ages 12-36 months

JOHNS HOPKINS
MEDICINE

Approved May 8th, 2018

Are you interested in participating in a study about a new child development screening tool?

Child development researchers at Kennedy Krieger Institute are investigating the effectiveness of a new developmental screening tool

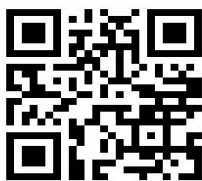

You & your child may qualify if he/she...
is between 12-36 months

What is involved?

Completion of:

- A brief questionnaire about your family (15 minutes),
- Online developmental screeners (approximately one hour), and
- A play-based follow-up assessment of your child's development at our center, Baltimore City Infants & Toddlers, or at your child care center (about 2 hours, including breaks).

Research Study
Dr. Rebecca Landa, Principal Investigator
JHMI IRB Protocol #:NA_00066880

Center for Autism and Related Disorders
at Kennedy Krieger Institute
