

Are you a parent/caregiver of a child with developmental delay or autism?

We want to hear from you!

- This research is being conducted to study caregiver perceptions on developmental delay/autism, and how to make the screening and diagnosis process better
- Participate in a secure phone or videoconferencing interview with a member of our study team
- The interview will be approximately 30 minutes to 1 hour long
- Participating families will receive a \$25 Target gift card

For more information, please contact:
