

Seeking children/teens (ages 4-18 years) to participate in a study of social and communication development:

Dr. Rebecca Landa,
Principal Investigator
KENNEDY KRIEGER
INSTITUTE

You and your child/teen are invited to participate in a research study of language and social development in children and teens.
Study Number: NA_00038069

WHAT ARE THE BENEFITS OF PARTICIPATING?

- Learn about your child's/teen's development and research
- Free developmental research assessments (language, learning, and social)
- Improve understanding about development and developmental disorders
- There are no direct medical benefits

WHAT WILL BE INVOLVED?

- Assessment may be completed at your home, your child's/teen's school or in our center and if necessary can continue later (total: about 2 and a half hours)
- Parents complete questionnaires about the child's/teen's cognitive, social, and behavioral development (about ½ to 1 hour)
- Sessions are video recorded (and kept confidential) for later scoring

WHAT ARE THE RISKS?

- Your child/teen may get tired, bored or frustrated. Breaks will be taken as often as needed. If necessary, testing can continue on an additional day.
- We will be flexible in scheduling appointments.

HOW CAN YOU HELP?

You can help by volunteering for our study. If you have a child/teen (4 - 18 years old) and would like more information about participating, please call 443-923-7549, or e-mail at reach@kennedykrieger.org

Thank you!
