“Learning About Johns Hopkins: Slaveholder and Abolitionist?”
Martha S. Jones, PhD, JD, Society of Black Alumni Presidential Professor, Professor of History, Professor at the SNF Agora Institute, The Johns Hopkins University

Learning objectives:
1. Discuss Dr. Jones’ career trajectory from activist lawyer to historian
2. Describe research strategies and evidence associated with discovering Johns Hopkins’ history of ownership of enslaved individuals
3. Describe the historical context of slavery and the abolitionist movement in Baltimore and Maryland during the time when Johns Hopkins owned enslaved individuals
4. List next steps related to investigating and revising Johns Hopkins’ life history

“Bridging the Divide: Access Barriers Faced by Patients With Communication Disorders and How Clinicians Can Address Them”
Arrianna M. Planey, MA, PhD, Assistant Professor, Department of Health Policy and Management, Gillings School of Global Public Health, University of North Carolina

Learning objectives:
1. Describe and contextualize barriers to healthcare access among patients with communication disorders
2. Describe dimensions of access to healthcare for hearing, beyond insurance status and affordability
3. Recognize points of intervention to address those barriers
4. Apply one’s knowledge of barriers to access in the clinical context to improve provider–patient rapport

Renee Boynton-Jarrett, MD, ScD, Associate Professor of Pediatrics, Boston University School of Medicine; Founding Director, Vital Village

Learning objectives:
1. Define adverse childhood experiences and social determinants of health
2. Describe the connection between adversity in early life and health outcomes during childhood and adolescence
3. List recommendations to identify and address adverse childhood experiences related to the Vital Village model
4. Apply community-based strategies to reduce child maltreatment and promote health and wellness
Panel Discussion (1–3 p.m. EDT)
“A Panel Presentation: Ableism, Healthcare and Health Outcomes”
Lydia X.Z. Brown, Esq., Moderator and Panelist; Founder, Fund for Community Reparations for Autistic People of Color's Independence, Survival, and Empowerment; Adjunct Lecturer in Disabilities Studies, Georgetown University
Nassira Nicola, Health and Disability Program Coordinator, Massachusetts Department of Public Health, Office of Health Equity
Elaina Ramos, MD, Family Medicine Resident, Icahn School of Medicine at Mount Sinai

Learning objectives:
1. Define ableism
2. Identify three ways that ableism shows up in medicine and public health
3. Identify and explain at least three ways that people with disabilities experience health disparities throughout their lifetimes

Workshop (1–4 p.m. EDT)
“Empowering People to Break the Bias Habit: Evidence-Based Approaches to Reducing Bias, Creating Inclusion and Promoting Equity”
William T. L. Cox, PhD, Director, Stereotyping and Bias Research Lab, University of Wisconsin-Madison; President and CEO, Inequity Agents of Change Foundation

Learning objectives:
1. Recognize how biases and inequity are learned and persist within individuals and within social systems
2. Identify different ways that race bias, gender bias and other intergroup biases can seep into judgments and behavior unintentionally
3. Apply evidence-based tools to reduce bias, create inclusion and promote equity within individuals and institutions
