

Internship Admissions, Support, and Initial Placement Data

Internship Program Admissions

Date Program Tables are updated: July 30, 2018

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

We strive to recruit interns who are prepared to meet the challenges of this internship. As such, we seek interns who have a strong background in at least one of the following areas: applied behavior analysis, family therapy, developmental disabilities, pediatric neuropsychology, or behavioral pediatrics. Successful applicants are expected to possess training and experience that is consistent with Health Service Psychology. That is, we select interns who have didactic training and supervised experience in the nine Profession Wide Competencies. We attempt to recruit interns from doctoral programs that emphasize empirical, data-based approaches to the practice of psychology. We expect that successful applicants have experience using the scientific literature to develop assessment and treatment strategies and we evaluate the applications accordingly. Particular attention is paid to the extent to which the applicant has received supervised practica experience with children and families in the areas listed above.

Does the program require that applicants have received a minimum number of hours of the following at time of application?

Total Direct Contact Intervention Hours	No, however successful applicants typically have 800 intervention hours or more.
Total Direct Contact Assessment Hours	No, however successful applicants typically have 350 assessment hours or more.

Describe any other required minimum criteria used to screen applicants:

Candidates must currently be enrolled in a Ph.D. or Psy.D. graduate program in psychology at an APA-accredited institution.

Visa Requirements: Applicants must be either US citizens or enrolled in a US doctoral program on a student visa. International students enrolled in doctoral programs outside the US are not eligible for internship at KKI.
